

ENUM @ .de

- agreement signed with the german regulator in August 2003
 - without limitation
 - reports about the trial provided to the regulator
 - finding a solution for the authentication problem

ENUM @ .de

- improving the semi automated registration of 9.4.e164.arpa domains to a fully automated high volume system
 - currently less than 100 delegations
 - there are signs that demand will increase
 - offering a new authentication service

ENUM @ .de

- bringing ENUM users/developers together at the next technical meeting at 23. September
 - enum technology + deployment
 - number validation process
