

# Summary: RIPE46 DB-WG

Meeting: Amsterdam, Sept. 3. & 4., 2003

Slot #1: 68 Names | Slot#2: 50 names on the list

Scribe: Can Bican, RIPE NCC (**THANKS!**)

Agenda: v2, on the web!

Amendments:

- new sequence of items: ... D., F., G. on Wednesday
- E., H., I.... On Thursday
- Z: AoB
  - proposal to keep objects for revoked resources in the DB
  - proposal to retire **auth: NONE**
  - cross-registry in/consistency issue

# Some Highlights

- Status attribute changes:
  - "Big Bang" approach is being reconsidered
  - **org**: object might change the approach => delay :-(
  - Support for sub-allocation is urgent! **OK?**
- PKI / X.509 stuff:
  - Implementation proposal taking shape
  - Good discussion
  - New version of proposal soon. **OK?**

# Some Highlights (cont...)

- RPSS compatible authorisation
  - Change in default behavior of DB proposed - if there is no **mnt-lower:** attribute
  - May impact procedures in LIRs and?
    - Implementation proposal is available
    - Please come back to us if you expect problems!
- Input requested from the Services WG!
  - To DB-WG mailing list

# Some Highlights (cont...)

- Input from other WGs & AoB
  - Anti-Spam: Review the amount and structure of the *default whois* response to a query
    - Impact of inverting the meaning of **-r** ?
    - What is the proper place to discuss this?
    - Input requested from the Anti-Spam WG!
  - Remove **auth: NONE**
  - **status: REVOKED** ? (to support bogon hunting)
  - Cross-Registry consistency!
    - We need input from LIR, Services & Routing!
  - DB Architecture & Assumptions document
    - Interest: 5 hands raised, thank you!

# For the next meeting(s)...

- Review of Mission Statement:
  - In collaboration with the other chairpersons
  - Still input requested from the whole community
  - Final approval at RIPE47
- Development work:
  - **org:** object
  - PKI / X.509 stuff
- For investigation:
  - CRISP? Whois answers, cross-reg. consistency
